MIXING / COMPATIBILITY

Miller Calcium Chelate is soluble in water. Add the weighed amount of the powder, slowly, to the bulk of the water and stir or agitate until dissolved. If pesticides are to be used in the spray mix, add them after the Calcium Chelate has dissolved. Miller Calcium Chelate is physically compatible in spray tanks with most Peanut Leaf Spot Control fungicide. Do not apply Miller Calcium Chelate with oil. When adding Miller Calcium Chelate to Leaf Spot programs, allow for additional water in spray tank.
