#### GENERAL INFORMATION

CROP FINISHER™ is a late season material designed to complement a complete foliar crop production program.

#### COMPATIBILITY

CROP FINISHER™ is compatible with most pesticides commonly used on vegetable, fruit and agronomic crops. CAUTION: Do not use with Dormant Oil, Lime Sulfur, Spray Lime, or highly alkaline spray materials. Add CROP FINISHER™ to the spray tank or pre-mix tank when it is about half full. Agitation in the tank is preferred to increase the speed of solubility. Where extremely cold water is used, allow a few extra minutes for the product to completely dissolve before spraying.
